Wildlife

Game viewing, either self-drive or via pre-arranged guided game drives will be a highlight of your stay. Kigelia is one of the few farms in the area with a buffalo herd, and an abundance of wildlife, plants, birds and insects populate this beautiful farm with its healthy eco system and sustainable wild life farming. The owners have put in a major effort to rid the area of invasive foreign plant life as to restore and protect the indigenous trees, bush and grass endemic to the area.

Game species you might encounter are buffalo, njala, kudu, water buck, duiker, blesbuck, zebra, giraffe, blue wildebeest, monkeys, leopard, jackal and serval. Bird watchers are in for a treat but also be on the lookout for an abundance of indigenous butterflies and smaller wild life like likkewaan, snakes and leopard tortoise. The five dams and Elands River, are the main water sources for the wildlife and host to dragonflies, fish and frogs.

Keen fishermen can try their luck in the dams or the Elands River that flows through the farm.

THINGS TO DO

Guided game drives are available at an additional cost. Please arrange pick-up times with the farm manager upon arrival.
